

## **Tonin & Co. LLP**

### **Senior Accountant**

#### **The ideal candidate:**

Our Guelph office is currently seeking an enthusiastic individual with experience in public accounting to join the team as Senior Accountant.

We are a close-knit team. Bringing in a new staff member is like bringing in a new member of the family. We are looking for a personable, hard-working individual that will help to drive the organization forward. The candidate should have successfully completed the CFE and have at least two years' experience in public accounting.

Naturally, experience with industry-specific software (Caseware, Taxprep, Sage, QuickBooks) is required to excel in this role. While a CPA or CA designation is preferred, it is not a requirement to succeed as a valuable contributor to our team. It is assumed that the ideal candidate will have strong attention to detail and high-level analytical skills, the ability to work with others as a team member or independently as required, possess top-notch written and verbal communications skills, and have the innate capability to see the "big picture" when it comes to clients' finances.

In addition to their CV/resume, candidates are strongly encouraged to submit a cover letter explaining why they are interested in joining our firm, and how they see themselves being a good fit with our team.
